

**Remarks**

Applicants gratefully acknowledge the Examiner's remarks stating that Applicant's previous response has over the various rejections under 35 USC 112 as well as the original objections to the claims. Applicants note the Examiner's statement that deletion of the phrase "solvates and hydrates" would obviate the present rejection under 35 USC 112. Applicants believe that the amendments to the claims, now address this rejection.

Applicants understand that the Examiner has rejoined the method of use claims and rejects the claims in light of the broad indication "metabolic disorder". Applicants have canceled these claims to expedite prosecution of the case to issuance. Although Applicants have canceled the method of use claims, Applicants note that the claim directed to a pharmaceutical composition, that is, Claim 56, is appropriate in light of the teachings in the specification as filed.

Applicants believe that the amendments place the application in condition for allowance. Applicants respectfully request favorable reconsideration in light of the amendments, and prompt passage to issuance.

Respectfully submitted,

/MaCharri Vorndran-Jones/
